

2023 RIO Tournament

Unfortunately, due to clashes with other events (I think), the RIO tournament was not as well attended by counties as has been in previous years. There were 5 Counties in the tournament - Yorkshire, Surrey, Hertfordshire, Leicestershire & Lancashire. This was a good warm up tournament for ICT and assisted with selection of the ICT team.

Again, we were a younger squad with less than 50% of the team at the older end of the age group. We did not win a match, but that was to be expected as Yorkshire, Hertfordshire & Leicestershire finished top four at ICT.

The main thing was that Lancashire was represented and we did win plenty of games, with some good individual performances. All players enjoyed the weekend and were appreciative that Lancashire covered the costs.
